

December 2022 Portfolio Update (MDA Class)

Investment Description

The aim of the VIP Growth Portfolio is to provide investors high level of capital growth over the medium to long term through exposure to a diversified portfolio of investments, with a strong emphasis on growth assets and defensive assets.

Portfolio Updates

Following strong gains in October and November, thanks in part to a smaller than expected rate hike by the RBA in October and softer inflation numbers in the US, December proved to be a more difficult month for Markets with the ASX200 falling 3.21%. VIP's Investment Committee made the decision to reduce our Materials holdings in December and take some of the profits gained throughout 2022. Looking forward, inflation and whether Central Banks around the world continue in their aggressive rate hiking cycles will remain major talking points throughout 2023.
