

August 2023 Portfolio Update (SMA Class)

Investment Description

The model provides an actively managed diversified portfolio with a strategic allocation of 80% in growth assets and 20% in defensive assets. The manager uses tactical asset allocation within pre-defined ranges as a key contributor to the manager's investment objective and core philosophy of minimising portfolio volatility.

Portfolio Updates

VIP's Growth Portfolio was down 0.7% for the month of August but remains up 6.7% Y.T.D. This performance has it once again on track to deliver a good result for the year despite its conservative positioning due to the ongoing uncertainty of potential recession and reemergence of inflation. It was our conservative positioning as equities rallied over August which impacted our month, but the reemergence of rising oil prices and the threat this poses to reducing inflation in the US is again of concern globally and supports ongoing conservatism.
