VIP Balanced Portfolio

June 2026 Portfolio Update (SMA Class)

Investment Description

The model provides an actively managed diversified portfolio with a strategic allocation of 60% in growth assets and 40% in defensive assets. The manager uses tactical asset allocation within pre-defined ranges as a key contributor to the manager's investment objective and core philosophy of minimising portfolio volatility.

Portfolio Updates

VIP underperformed its benchmark in June as weakness across resources, energy and technology holdings weighed on returns, following a fall in oil prices and broader market volatility. The portfolio's higher cash weighting reduced upside participation during the equity rebound but provided greater resilience and downside protection through fluctuating market conditions.
